- THE RHEINLAND-PFALZ AWARD -

On the occasion of the twenty years´ existence of the "District Rheinland Pfalz" within the "Deutscher Amateur-Radio-Club e.V.", the Rheinland-Pfalz Award is issued. It is to increase the activities on the bands and to defend our bands.

All contacts made with stations in the "District Rheinland-Pfalz", established after the 1.1.1970 will count for this Award. Only German stations have to operate on 80 and 40 meter-bands. All other stations may operate on every shortwave-band. There is no regulation which kind of mode is used. Every K-DOK (K Ø1 until K 24) and the DOK Z 11 and Z 22 are counting as 1 point on every band.

German stations will need 40 points for the Award,
European stations will need 30 points for the Award,
non-European stations will need 20 points for the Award.

The Rheinland-Pfalz-Award can also be obtained by SWL´s. The same conditions will apply for them.

For German stations the charges for getting the Award will amount to DM 4,-- and for all other stations 10 IRC´s.

Applications with QSL-cards and fees should be sent to
